## Why plan in advance?

Few of us enjoy discussing, or even thinking about, the day when we're no longer around. However, more and more people are now coming to realise that planning - and paying for - their funeral arrangements in advance makes perfect sense.

Funeral costs can often cause financial strain on the family of the bereaved, so choosing to cover these costs in advance is a thoughtful and practical solution. A pre-paid plan

from Golden Leaves sets payments at today's prices, effectively 'freezing' the cost of a funeral indefinitely. In short, it's a money-saving and effective way to combat and fund the effects of funeral inflation.

With the ability to tailor the plans to meet your personal preferences, Golden Leaves range of affordable funeral plans also spares our loved ones the dilemma of trying to guess what kind of funeral they think we'd want.
